We are delighted to announce the launch of the new Retailers Against Crime (RAC) brochure, providing an updated overview of the support, intelligence and crime-reduction initiatives available to businesses across the retail sector.

The new brochure highlights:

- How RAC support retailers in preventing crime including shop theft and acts of violence.
- The benefits of membership and partnership working.
- Intelligence sharing, crime prevention and the impact RAC is making across retail communities.

Designed for retailers, partners and stakeholders, the brochure provides a clear introduction to how collaboration and information sharing can help make retail environments safer.

Download the brochure to learn more about how RAC is supporting businesses and communities.

RETAILERS AGAINST CRIME

Local knowledge with a national reach

RAC On The Road

It was great to see key city centre partners including Dundee BID, Police Scotland and local businesses coming together in Dundee. Collaboration like this makes a real difference and we look forward to building on this partnership to help make Dundee city centre safer and more welcoming for everyone.

Cross Border Update:

Individuals are suspected of actual and attempted thefts of various goods including clothing, accessories, electrical, alcohol, vapes, toys and confectionery, often charging into stores and leaving with stock via fire exits. They work together and separately and are violent, abusive and aggressive when challenged. Most recently travelling to Cardiff, Milton Keynes & Newcastle. Members can view further cross border updates on SentrySIS.
